

The Egyptian Financial Company for sovereign Taskeek

Performance of Egyptian sovereign sukuk (Maturity on February 2026)

(A chart showing the performance of Egyptian sovereign sukuk until 2 May, 2025)¹

Egyptian sovereign sukuk prices rose to \$102.437 (02/05/2025) compared to \$102.187 (25/04/2025), and the yield to maturity decreased to 7.78% (02/05/2025) compared to 8.18% (25/04/2025). This coincided with the US Bureau of Economic Statistics' announcement on Wednesday (30/04/2025) that the annual personal consumption expenditures price index in the United States, which is one of the most important indicators for measuring inflation in the United States of America, slowed to 2.3% for March 2025 compared to 2.7% for February 2025.² This index is one of the most important indicators for measuring inflation in the United States, which enhances the possibility of the Federal Reserve continuing to cut interest rates during the current year.

US dollar interest rates	Sukuk maturity Feb 2026 yield rate
